As women, it is important to have an HIV prevention method that is in our hands.

Consider PrEP if you are a woman who:

- Worries about her HIV risk
- Has condomless sex with partners of unknown HIV status
- Recently had gonorrhea or syphilis
- Wants to have a baby with a man living with HIV
- Injects drugs
- Exchanges sex for $/food/housing/drugs

has a male sex partner who:

- Has condomless sex with others
- Has sex with men
- Injects drugs
- Has HIV or sexually transmitted infections
